A Company You Can Trust

The goal of Net Works is to provide our clients with honest, reliable service. We strive to fulfill your computer, network and Web needs to your exact specifications.

At Net Works, our clients are our most important assets. Whether you are a beginner or an experienced computer user, we will take the time to discuss your specific needs in a language you can understand. Whether you are a home user or a business, you tell us what you need and we will do our best to fulfill that need.

Repair / Upgrade

We offer a full range of services, from a simple repair of your desktop PC's, to upgrading your PC's and servers, all the way to custom built PC's & Servers.

Networks

Let our networking experts take care of all your networking needs. From setting up a small 2 computer LAN (Local Area Network) to building you a huge LAN/WAN (Wide Area Network) to maintaining, solving problems, or expanding on your existing network.

Web Design/ Hosting

We cater to a wide variety of clients with varying needs but with the single goal of using the power of the Internet to get their message to as many people as possible. Net Works is dedicated to creating visually dynamic and memorable web pages. Our goal is to provide you with a uniquely personal service, using original graphics that highlight your specific business or personal web page.

Databases

Is your inventory out of control? Does your contact manager not have the features you need? Let a Net Works' database programmer customize a database solution built around your business model.

Remote Backup

Net Works' remote backup solution is the answer for your fast-paced business environment. Today's companies are constantly working with critical and confidential information. Data loss means lost time and lost business. With Net Works, backups are reliable, automatic and totally secure. Now critical data can be backed up regularly and stored with complete privacy.
