FOR IMMEDIATE RELEASE
September 1, 2015

NET WORKS INC AND JNR COMPUTERS JOIN FORCES

Daytona Beach, FL, September 1, 2015- We are proud to announce that on July 1st, 2015, Net Works, Inc of Daytona Beach, and JNR Computers of Ormond Beach merged to better serve the IT needs of Volusia County.

JNR Computers opened in 1990 (25 years!) by Ron Curtis and was acquired by Bryan Day in 2013, when Mr. Curtis retired. Bryan has been working at JNR since 2001. Net Works opened in 2000 (15 years!) and is owned by Jason and Tony Ionno.

Net Works will oversee the management of the JNR Computers location and Bryan Day is now a full time team member at Net Works. Together, we share over 40 years of business and computer service experience.

Net Works Inc has 15 employees servicing both business and residential computer systems in Volusia and Flagler counties.

Both locations sell computer and networking hardware and accessories, and your computer can be dropped off for service at your most convenient location.
